Professional Summary

Driven and detail-oriented computer science undergraduate with a growing passion for full-stack development, artificial intelligence, and digital transformation. Possesses strong foundational knowledge in HTML and CSS, with current training in JavaScript and Python. Experienced in tutoring and data handling, with a demonstrated ability to learn rapidly and adapt to new technologies. Currently engaged in intensive online courses focused on front-end development, machine learning fundamentals, and digital marketing.

Looking to apply my developing technical skillset and analytical thinking in internship opportunities, digital assistant roles, and junior developer positions where I can contribute, grow, and continue building real-world experience.

Work Experience

AI Productivity Assistant (Remote - Freelance Role)

Lagos

January 2024 to Present

- Leveraging AI tools (such as ChatGPT, Canva, Notion, and automation workflows) to simplify tasks for students, job seekers, and small business owners
